Throughout the year, the ISI hosts exciting national events that follow a simple philosophy: Participation, not elimination. That means ISI members, regardless of their skating level, are able to experience the thrill of performing for an audience while competing for the fun of it on a level playing field.

ISI skating events provide many social and peer group possibilities. Our members enjoy meeting people who share common interests and look forward to cultivating friendships year after year at skating events.

Event locations, which vary from year to year, are always interesting, fun-filled areas so skaters and their families can enjoy great vacation areas. Click on the links to the left and find out more about

the skating event that interests you.
