weSKATE 3.0 with ISI*Link*

Welcome to ISI's weSKATE 3.0 Class Management Software with ISI*Link*. This interactive software is offered as a FREE member benefit to all ISI administrative members.

The we*SKATE* 3.0 Class Management Software has been developed as a tool to help you administer all facets of your learn-to-skate program. Whether it be just looking up a member via ISI*Link* or organizing your entire skating school, weSKATE 3.0 can be tailored to suit your needs.

The new ISI*Link* portal is your connection to the ISI member database enabling you to add any type of membership, update individual test records and verify information – all of which is updated daily.

Download your copy here.

Class Management Software

- Flexible software to suit your needs
- Organize your learn-to-skate program
- Print out rosters, custom graduation certificates and name badges
- List class curriculum and track attendance
- Set defaults for class or semester length including multiple semesters that overlap
- Set controls for instructors teaching various class levels
- Print Progress Reports
- Register tests and print test certificates
- Track skater history - membership, class registration and tests
- Email re-enrollment reminders, birthday greetings or other notices
- Create data for multiple facilities, buildings, locations (i.e., dividing ice for classes, creating off-ice locations etc.)

ISI*Link*

- Portal to the ISI membership database
- View or edit all of your skaters' ISI membership and test information
- Easily contact your ISI customers by email through the *weSKATE* email portal or by printing out mailing labels
- Print out a comprehensive spreadsheet listing all of your ISI members (weSKATE Club, Skater, Hockey, Professional) any time
- Database is updated daily

Competition Management Module

- Verification portion now available (find skater by name or ISI number to verify arena, membership status, test level and age)
- Additional features coming soon
