

***weSKATE* is the *Original* ISI Recreational Learn-to-Skate Program**

***weSKATE* is the program of choice** for successful coaches and skating schools wishing to increase participation and improve skater retention while keeping skating fun! The same Pre-Alpha to Delta and Freestyle 1-10 testing and competition programs have been used for more than 40 years. The new Open Freestyle tests and events give all skaters more flexibility and event options.

The [weSKATE ISI Recreational Skating](#) program:

- Encourages individuals to skate for *FUN and enjoyment!*
- Provides ice skating programs and easily attainable [testing levels](#) for all ages and abilities.
- Provides opportunities for skaters to participate in [exhibitions, shows](#), and in [local and district competitions](#) in many different [event categories](#).
- Offers the opportunity for participation each year in at least five [national/international ISI competitions](#) in various locations across the USA that are open to all ISI members worldwide.

Important tools of the *weSKATE* program include:

[2016 ISI Handbook](#)

Newly revised and improved, this handbook is a must-have for both coaches and skaters. EVERYTHING you need to know is at your fingertips in this newly combined edition. It includes: current test requirements and procedures; competition event performance rules; judging guidelines and criteria; maneuver limitation and duration event chart; penalty chart; and in-depth descriptions for each maneuver or element.

[weSKATE with ISILink Software](#)

This FREE benefit to all ISI Administrative member arenas and clubs helps skating directors organize and administer the skating school program from start to finish – create and schedule group classes; register and track skaters; record attendance, tests and memberships – and much more!

[weSKATE Kit](#)

Each current Administrative member can request a complimentary copy of the *weSKATE* Kit. This valuable resource contains promotional materials that can be customized for your facility and program, skating clip art, event calendars, class curriculum guides and coaching resources.

[weSKATE Club](#)

The *weSKATE* Club is a 13-week registration designed to be a more affordable alternative for beginning skating school students (Tot-Alpha levels). Benefits include: excess accident insurance and the ability to test and compete through the Alpha level.

[weSKATE National Instructor Training Program](#)

This program is designed to educate and train instructors in the techniques, testing standards and professional requirements for teaching the ISI *weSKATE* program. It helps develop the skills needed to be an outstanding coach while teaching the leading learn-to-skate program.

***weSKATE* certification levels include:**

- Core (Tots – Delta)
- Intermediate (Freestyle 1-5)
- Advanced (Freestyle 6-10)

ISI programs are rewarding for skaters, coaches, clubs and arenas alike.

They're simple, proven and easy to administer.

ISI ... it just makes sense!
