

Synchronized Team Membership

Our new Synchronized Skating Team Membership category was created for any synchronized skating team that is part of a NON-ISI Administrative member rink. This purpose-built membership will allow these teams to be registered with the ISI National office and eligible to compete at local or national ISI-endorsed competitions. It's our hope that this exciting addition to our membership offerings will encourage synchronized skating teams across the country to participate in ISI local and national events. The individual skaters on a team, comprised of 8-24 skaters, must be ISI Individual members (\$15/year) and the coach accompanying the team to competitions must be an ISI Professional member (\$85/year). The fee per team is \$99. Membership will run Sept. 1 through Aug. 31 of the following year.

ISI SYNCHRO TEAM MEMBERSHIP INCLUDES:

- Team registration with the ISI national office.
- ISI Team member patch and a crescent patch, designating the current season of membership, for all skaters.
- Team manager background check (required for receiving a competition credential for ISI national events).
- Complimentary copy (for the coach) of the latest ISI Handbook, containing all the rules and regulations for synchro team competition.
