Code of Conduct

Hockey Tournaments

ISI has secured an extension of its hockey membership insurance to provide temporary coverage for non-member players participating in an ISI-endorsed tournament.

Hockey Schools and Camps

In addition to annual and tournament memberships, ISI now offers abbreviated memberships and insurance protection for participants in hockey schools and camps conducted by ISI member facilities.

These programs offer the same excess accident, catastrophic injury and liability insurance coverage provided to ISI hockey members at significantly reduced rates for a specific period of time.

Participants agree to and accept responsibility for all of the following:

1. Read and abide by all posted signs and warnings, and cooperate with the arena staff.
2. Players will not engage in vandalism or destruction of property at any time.
3. Locker rooms shall be kept clean and in good condition. Stealing will not be tolerated.
4. Profane language, verbal or physical abuse directed toward any teammate, opponent, official, coach, spectator or arena staff member will not be tolerated.
5. Use of alcohol, drugs or tobacco is not allowed prior to or during a game.
6. Poor sportsmanship by anyone will not be tolerated at any time.
7. Leave the ice surface when resurfacing or maintenance is taking place. Keep clear of all exits and do not sit on or hang over dasher boards.
8. Refrain from throwing or leaving any objects on the ice surface.

Assumption of Risk

Participants are deemed to have knowledge of and assume the inherent risks of hockey, which include, but are not limited to, the following:

1. Injuries resulting from collisions, trips, slips, falls or contact occurring during the play.
2. Injuries resulting from pucks, sticks, skaters or other equipment used while playing.
3. Injuries occurring from changes in equipment of ice conditions during play.

ISI Recreational HOCKEY PROGRAM

ISI Recreational Hockey Program

ISI Hockey Membership

Learn-to-Play Hockey Program

Philosophy

The ISI Recreational Hockey Program has been developed to provide member arenas, skating schools and hockey associations a flexible, convenient and economical alternative for recreational hockey programming.

The objectives of this program and all ISI recreational ice skating programs are to:

- Stimulate interest and participation at the entry level
- Develop the basic skills needed to enjoy the sport
- Provide a safe and positive playing environment resulting in an enjoyable, fun and rewarding experience
- Generate revenue and reduce dependency on outside user groups

The ISI Recreational Hockey Program is designed to meet the needs of today's arena owners and program directors by offering the freedom and flexibility to tailor the program to meet their specific needs, while still enjoying the benefits and protection of a nationally sponsored program. All ISI adult hockey programs are non-checking.

ISI offers a hockey membership, which provides each individual member with certain benefits including membership card and excellent insurance coverage. The insurance includes excess accident, catastrophic accident and liability coverage for all registered players while participating in an activity sponsored by any ISI member facility. In addition, identical benefits are provided at no additional charge for all volunteers and officials (including referees) while working at an ISI-affiliated facility. Also, the participant's liability coverage extends to the sponsoring entity, thereby giving the league or facility an extra layer of coverage.

The membership year runs from September 1-August 31 of each year. Another popular feature of ISI hockey membership is the pro-rating of membership dues as of March 1 of each year. This is ideal for those conducting spring and summer hockey programs.

To take advantage of the ISI Hockey Program, the rink or league must be an Administrative member.

ISI's Registration Process

Registering your players with ISI is a no-hassle process, with several options to accommodate your specific needs.

Players may register individually or in groups by the administering rink or league. ISI supplies applications in roster form to register multiple players simultaneously. Another option is to use the Excel spreadsheet, which can be emailed to the membership department for processing. Once the registrations are emailed, ISI will invoice the member rink or league for the total amount due and send them a list of all registered players.

The ISI Learn-to-Play Hockey Program is designed to teach the basic skills required to skate and play the game of hockey. ISI has developed two manuals for the testing program:

- Hockey Skating Skills
- Hockey Skills (Passing and Shooting)

The ISI Hockey Test Program may be started in a group lesson format. The testing procedure may be done on a group or individual basis. Colorful badges reward participants for successfully completing each level.

Test sessions should be conducted in an informal manner and always in the spirit of fun. Tests are devised to encourage skaters to learn new skills, set new goals and continue participating.
